

NAME OF MODEL

## Model card

**Model description:** What does the model do?

**Data set:** Reference the source of the data. State the amount of data used to train the model.

**Intended use:** Who might use this model and for what purpose/how would it benefit them?

**Limitations:** Describe any limitations of the data used to train the model, such as the amount of data used and where the data has come from. What bias might be in the data?

**Accuracy:** Report on the results of testing from last lesson.
